Subject: RE: PFAS cover memo
Attachments: B21-02 Anvil Preliminary data checks and recoveries and Summary-QAO-210225.xlsx

I have finished my first pass of the B21-02 PAC for the Anvil Product data.

I did not check calculations to the report (that was done by Yan and David), I only checked transcriptions.

I have a few questions/clarifications needed (in yellow) for my transcription checks to the summary report (see "Product samples" tab of attached spreadsheet).

Paul

Thuy,

I received the project folder yesterday for the Anvil Product and am hoping to finish my first pass of the PAC today.

Subject: PFAS cover memo

All

We need to explain our data and why we think the fluorination process created PFAS. So I added a paragraph under Conclusions, in red for that. Please see if you agree and/or want to add anything else

I need this back before end of day today.

Ingeborg is added to this for a fresh new pair of eyes.

Thank you

Thuy
